[Quite a fun game, with some frustration thrown in.](#)

[I've played around half an hour of this game so far and am about to fire it up again.](#)

[Since it's early access you have to understand there are some issues, such as the draw distance of the mines. Whether this was a choice to make the game harder, I'm not sure but given how quick the character moves it causes me a little more frustration.](#)

[Character movement is my one main criticisms of this game and well worth a look at by the devs. Everything moves so fast but you have to be careful and move so slowly.](#)

[Recommended and will be checking this game out more as it's updated.](#)

[For more impressions and gameplay check out the link above.. It would make my day if you watched my review!](#)
