## About This Game

**Prehistoric Kingdom** is a zoo management game that gives players total control over the creation of their extinct animals and theme park.

Become the ultimate tycoon by taking charge of your very own prehistoric zoo; designing unique exhibits, hiring the required staff, and ensuring the safety of your guests. Choose from a wide roster of classic and lesser-known extinct creatures, each with their own detailed growth process and individual needs.

## Closed Alpha/Beta Newsletter

Want to participate in Closed Alpha and Beta Tests of Prehistoric Kingdom? [Subscribe to the Newsletter and we'll let you know when the CBT begins!](#)

From the tyrannical *Tyrannosaurus* to the majestic Woolly Mammoth, Prehistoric Kingdom features a wide roster of 50 prehistoric animals. Both great and small in size, every creature is inspired by scientific research and interpretation – defined by their own unique growth process, behaviour and environmental needs.

- **Aesthetic:** choose from over 150 alternate skins across the enormous roster.
- **Genetic Mutations:** get the chance to breed rare albino and melanistic animals!
- **Ontogeny:** watch animals seamlessly grow from young to old through a fully-simulated ontogeny system.

Make use of an array of creative tools to build the park of your dreams! Place buildings and attractions like the Fast Food Kiosk and Viewing Platform to satisfy guest needs and give them a view. Customization has no ends!

- **Creative Potential:** use 100+ placeable structures and decorations to create your prehistoric zoo.
- **Intuitive Tools:** create paths, elevated walkways and fences with three placement modes – freeform, curved and arc.
- **Go Modular:** edit wall pieces and decorations to construct custom buildings and objects.

Create enormous mountains or deep trenches with Terraforming! Edit the terrain height, paint lush vegetation, clutter, and ground textures from eight different climates! Make rivers or ponds with the water brush to satisfy the needs of different animals.

- 
- **Climates:** paint 32 ground textures and 64 plants across 8 different islands.

Lead your zoo to success: experience challenging, detailed, and enjoyable management mechanics that immerse you in the world that you built.

- **Get the Science Up to Standards:** unlock animals through fossil hunting, and research new services and buildings with Science Points!
- **Generate Resources:** provide power and water to keep buildings and electrified fences running!
- **Take Care of Your Park:** ensure a steady income by catering to your audience's needs and investing in sufficient security measures.
- **Battle the Elements:** watch the weather forecast to prepare for devastating disasters like hurricanes and blizzards!

Every creature in Prehistoric Kingdom has its own needs that must be tended to in order to effectively run your prehistoric theme park.

**Balance:** manage exhibit needs like foliage and water density to craft an ideal habitat.

**Treat:** research vaccines for contagious diseases and lethal pathogens.

**Prepare:** research security cameras to alert Park Rangers of escaped animals!

**Escape:** add Security Bunkers or set the park to Emergency Mode to protect guests from incoming threats.
